Westwood Mills is a Manufacturer and Fabricator of Granite Mailbox and Lantern Posts. Westwood Mills strives to provide quality products made to last. Our products are sourced locally and from around the globe. They include Solid Granite Posts, Cast Aluminum Mailboxes and Color Galvanized Iron Brackets. Our Granite is available in two colors and several finishes. Many of our products are architecturally designed exclusively for Westwood Mills. Custom fabrications and Engraving are all part of what we do. You can find our products at dealers throughout New England. Please contact Westwood Mills for a dealer near you.

Variations in Granite: Inherent in the beauty of Stone is the fact that no two pieces are exactly the same. Some of our granite is hand split, which is done by drilling 2"-3" holes in the Post and then inserting wedges. You may find these drill marks on some of the Posts. You may also find variations in veining and color. These variations in the Stone are normal and give the material its timeless natural beauty. Below are some examples of variations that you may see on our Stone Products.
